"WE CAN DO THAT!"

K108 KITCHEN DESCRIPTION:

K108 is a fully functional mobile kitchen, housed in a 24' trailer. The mobile kitchen has been designed with an array of cooking utilities including, grills, ovens, tilt skillets, and stockpot burners. The unit also contains unobstructed counter space, storage compartments and a multi-compartment sink. Florescent and natural lighting is provided. Exhaust hood fans and natural ventilations are used to aerate the kitchen.

CAPACITY:

K108 is fully capable of supporting over 500 people per day.

POWER REQUIREMENTS:

The mobile kitchen requires an electrical source. A single 50 amp, 220 volt single phase electrical connection is required to power the unit. Connection is made with a Hubbel 4-wire twist lock. In the event power is not available on site, a 60KW Generator is required.

PROPANE REQUIREMENTS:

K108 is supplied with two 74 gallon propane tanks on board.

POTABLE WATER REQUIREMENTS:

Mobile Kitchen requires potable water source. A single ¾" potable garden hose will feed the system. In the event of no on site water location, the kitchen can be supplied from a mobile tanker trailer.

GRAY WATER REQUIREMENTS:

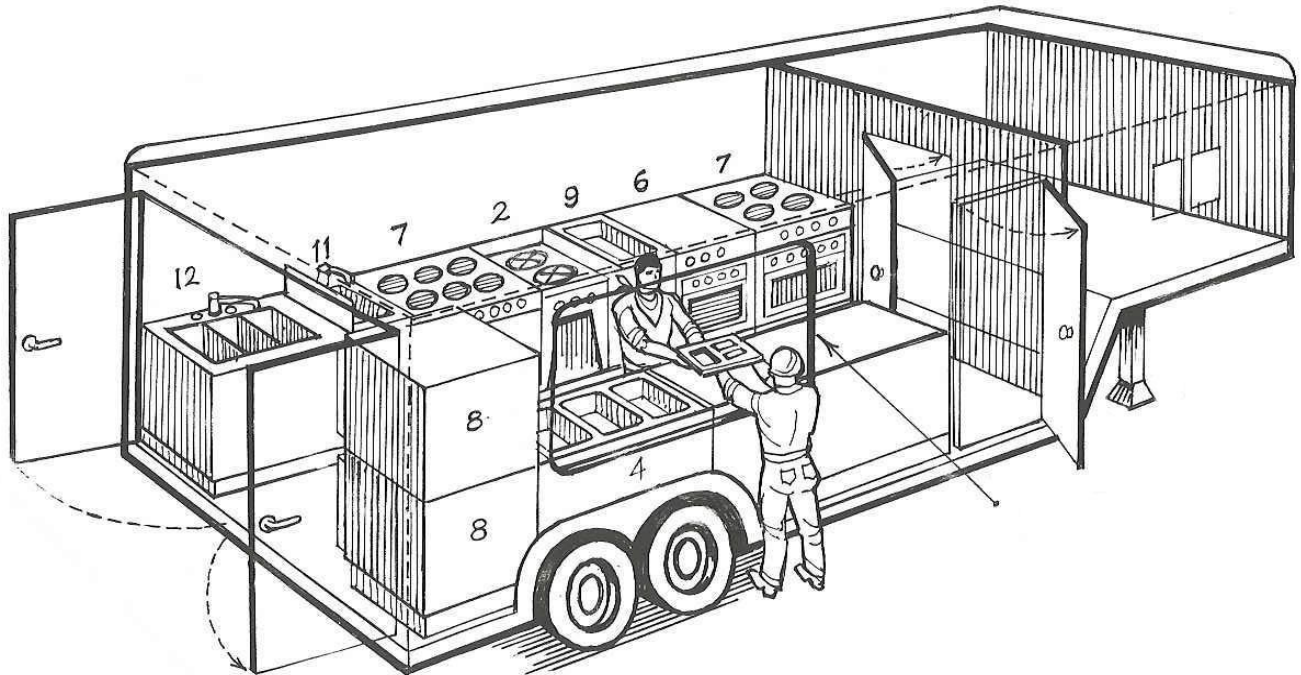

The mobile kitchen also requires gray water drop site. Connection is made with a 2" male camlock fitting. If no city sewer drop exists, the unit is supplied with self contained 1350 gallon holding tanks. A gray water removal service is required to drain tanks over the course of the operation.
